Addis Abeba, Ethiopia | [amariyatesfaw@gmail.com](mailto:amariyatesfaw@gmail.com) | +251927618147 | [linkedin](#) | [Website](#)

## Education

### B.Sc., Information Systems

CGPA 3.09/4.0

[Hawassa University](#)

2023-Present

Relevant Courses: Data Communication & computer networks, System & Network Administration, Operating System, Computer organization & architecture, Database Systems / Advanced, Artificial Intelligence, Internet programming/Advanced, data mining and machine learning, data science and business intelligence

#### Networking Basics

Learned networking fundamentals including routing, switching, IP addressing, and network troubleshooting AND Completed hands-on networking labs and practical exercises.

[Cisco Networking Academy](#)  
Jan/2024 - Nov/2025

#### HCIA-Datacom

Studied network architecture, ICT infrastructure, and modern networking technologies. AND Worked on practical networking scenarios and configurations. Improved understanding of enterprise network environments.

[HUAWEI ICT ACADEMY](#)  
Jan/2025-Feb/2026

### Junior Front-End Web Development

Learned core front-end technologies including HTML, CSS, and JavaScript and php focusing on building responsive and user-friendly web interfaces. completed hands-on projects involving website layouts, styling, and interactive features.

[Gebeya](#)  
sep/2025

## Experience

- Designed, implemented, and maintained more than 5 **LAN/WAN** systems and network protocols to ensure smooth operation.
- Configured 12 basic network setups including IP addressing, routing, and switching Using Cisco Packet Tracer.
- Practiced troubleshooting network connectivity issues using networking tools and diagnostic commands.
- Applied networking concepts learned from Cisco Networking Academy and Huawei Talent training in practical
- Designed and developed more than 2 responsive websites and web pages to ensure user-friendly and visually appealing interfaces.
- Built multiple front-end projects using HTML, CSS, and JavaScript, including layouts, navigation systems, and interactive features.

## Portfolio

[Project 1](#) | For small office  
[Collection of simple projects](#)  
[Clinical website](#)

## Skills

### Technical Skills

Networking & Infrastructure: Network Engineering, Routing & Switching, Spanning Tree Protocol (STP), VLAN Configuration, OSPF, EIGRP, DHCP, DNS, IPv4, IPv6, VPN Configuration, Wireless Security (WPA2, WPA3, 802.1X), Secure Remote Access.

Front-End Development: HTML, CSS, JavaScript, Responsive Design, UI/UX Principles, Cross-Browser Compatibility, vs code, Git and GitHub

**Soft Skills:** Presentation Skills, Team Collaboration, Communication, Time Management

## Certifications
